## II. Abstracts from Transactions published in Japanese.

### I. Transactions.

PAGE

Hidejiro NISHIKAWA: Biochemistry of Filamentous Fungi. V.—Mycelial Constituents of <i>Oospora sulphurea-ohracea</i> Part. II. ....	1
Sator OHDAKE and Teikichi YAMAGISHI: Oryzanin "Antineuritic Vitamin B". VI.—On the Chemical Constitution of "Oryzanin". ....	47
Kazuo YAMAFUJI und Shio Goro: Widerstandsfähigkeit des Seidenraupeneies gegen Hitze. ....	79
Tetuo TOMIYAMA and Minoru HANADA: The Nutritive Value of Fish Meals and Fish Cakes. ....	110

## II. Abstracts from Transactions published in Japanese.

	Page		Page
On the synthesis of amine from the alcohol, (Y. SHINOZAKI and H. KUBO), .....	8	Studies on cytochrome C. Part I.—Is porphyrin C an amino acid porphyrin? (H. KATAGIRI, K. MASUDA and T. HIME-MOTO), .....	15
Über das Eiweiß der gereinigten <i>Panicum Crus-galli</i> , L. var <i>frumentaceum</i> , Hook f. (T. OHARA), .....	8	Utilization of the irradiated mycelium of <i>Aspergillus oryzae</i> for poultry feeding (III).—Influence for moulting. (K. YOKOYAMA and R. TAKATA), .....	15
Studies on high pressure hydrogenation of the castor oil. I. On the reduction of the hydroxy group. II. On the formation of octadecandiol (1, 12) and the capillary chemical properties of the sodium salt of octadecandiol-disulphonic acid-ester. (Y. SHINOZAKI and S. KAGAWA), .....	9	Studies on the chemical constituents of "Inekoji". Part IV.—The organic acids. (T. YABUTA and Y. SUMIKI), .....	15
Enzyme chemical investigation of Formosan snake venoms, V. Studies on the activation of peptidase by the snake venoms. Part VIII. On the active constituent in the venoms of Taiwanhabu [ <i>Trimeresurus mucrosquamatus</i> (Cantor)] and Taiwankobura [ <i>Naja naja atra</i> (Cantor)], for the activation of dipeptidase. (Y. TSUCHIYA), .....	10	Studies on the chemical constituents of "Inekoji". Part V.—The red pigment, ustilaginoidin (II). (T. YABUTA and Y. SUMIKI), .....	15
On the koji-amylase. Part V.—The difference between the amount of extraction of koji-amylase, maltase, saccharase and protease with salt solution. (Y. TOKUOKA), .....	10	Studies on the chemical constituents of "Inekoji". Part VI.—The red pigment, ustilaginoidin (III). (T. YABUTA, Y. SUMIKI and H. IGARASHI), .....	16
The manurial effect of guano on rice-plants. (C. ICHIKAWA), .....	11	The toxic effect of high doses of liver oils and the activity of yeast in prevention of the toxicity. (M. YOSHIDA), .....	16
The influence of monochromatic lights on the action of soyaurease. (R. MURAKAMI), .....	11	Über die Verschiedene Eigenschaften von <i>Aspergillus</i> arten (IV). (Y. TAKEDA und O. TAKEUTI), .....	16
Über die technische Citronensäuregärung I. Mitteilung. (R. NAKAZAWA und M. NAKANO), .....	12	On the sugars of the flue-cured tobacco. (T. NITO and T. IWASAKI), .....	17
Über die verschiedene Eigenschaften von <i>Aspergillus</i> arten (III). (Y. TAKEDA und O. TAKEUTI), .....	12	On the estimation of certain elements with the spectrograph by arc process. (Part 2). (K. KONISHI and T. TSUGE), .....	17
Biochemical studies on glutathione. Report I.—Some correlations between glutathione contents of arterial blood and of venous blood of normal rabbits. (M. OGAWA), .....	13	Über die Oberflächenaktivität und die Adsorbierbarkeit von Aminosäuren. VIII. Mitteilung. (T. ITO), .....	17
Biochemical studies on glutathione. Report II.—Effect of ultraviolet ray radiation on blood glutathione. (M. OGAWA), .....	14	Chemical studies on Japanese coccidae, XIII. —On the resinous substance of <i>Ceroplastes rubens</i> Mask. II. A new resinic acid, rubenic acid. (M. KAWANO and R. MARUYAMA), .....	20
Biochemical studies on "Sotetsu" ( <i>Cycas revoluta</i> Thunb.), Part VII.—On the chemical constituents of the outer spermoderm of "Sotetsu"-seed. (K. NISHIDA), .....	15	Chemical researches on the cellulose resources, Part V.—The $\alpha$ -cellulose contents of various pulp plants. (K. SHIMBO), .....	20
		Chemical studies on Japanese coccidae, XIV. —On the resinous substance of <i>Ceroplastes rubens</i> III. A new resinol.—rubenol. (M. KAWANO and R. MARUYAMA), .....	22
		Studies on the phosphatides of eggs. (Y. MASUDA and T. HORI), .....	22
		Studies on cytochrome C. Part II.—Preliminary experiments on the synthesis of cytochrome C from protoporphyrin, (H. KA-	

TAGIRI, K. MASUDA and T. HIMEMOTO).	22	of mote, yeast mashes. (Y. TOKUOKA).	34
Chemical studies on silk fibroin (IV).—		The micro-determination of potassium and	
Chemical relation between fibroin com-		natrium in milk. (M. SATO and K. MU-	
ponents. (H. KANEKO).	22	RATA).	34
Chemical studies on silk fibroin (V).—The		Studies on bread-making partially substitut-	
relative viscosity of fibroin component solu-		ing rice flour for wheat flour. (T. TAKA-	
tions. (H. KANEKO, C. KOMATSU and		HASHI, S. HATA and R. TAKAHASHI).	35
Y. NAKAZAWA).	23	On the alcohol manufacture from jerusalem	
The utilization of the by-products of soy-		artichoke (Part II).—On the saccharifi-	
beans. (Y. IWASA).	24	cation of jerusalem artichoke. The acid	
Agar solidity tester. (A. ITANO and Y.		hydrolysis (II). (T. ASAI).	35
TsUJI).	26	Relation between hardness and components	
On the production of aethylenoxide- $\alpha$ , $\beta$ -		of tomatoes. (S. MACHIDA and K. YA-	
dicarboxylic acid by mould, Part I. (K.		MADA).	36
SAKAGUCHI, T. INOUE and S. TADA).	27	On the chemical nature of soils in North	
Studies on alcohol manufacture from jer-		Manchuria. (M. IKEDA).	36
usalem artichoke, Part I.—On the sac-		Carbohydrates in the bulbs of allium. VIII.	
charification of jerusalem artichoke. The		—Distribution of scorodose. (Y. KIHA-	
acid hydrolysis (I). (T. ASAI).	28	RA).	37
Über die hypoglycämische Wirkung des Auto-		Sterilizing action of acids. VIIIth report.	
lyse-Saftes der Hefe und Pilz, insbesn-		Relation between the stereo-chemical con-	
dere über Kurven der Blutzuckererniedrig-		stitution of fatty acids and the physiology	
ung. (Y. SHIZUME).	29	of bacteria. No. I. Cis trans acids iso-	
Chemical studies on Japanese coccidae. XV.		mers and physiology of bacteria synopsis.	
On the nitrogeous and inorganic substances		(S. TETSUMOTO).	37
of sasakiaspis pentagona tar. (M. KAWA-		Untersuchung über die Verwitterung der	
NO and R. MARUYAMA).	29	Eruptivgesteine IV.—Weitere Untersuch-	
On the koji-amylase, Part VI.—Formation		ungen über die photochemische Methode	
of amylase, maltase and protease during		zur Bestimmung der freien Eisenoxyde.	
cultivation of sake-koji. (Y. TOKUOKA).	29	(M. HARADA).	39
On the koji-amylase, Part VII.—The effects		Estimation of phenylethylalcohol and its pro-	
of temperature for cultivation and of de-		duction from <i>l</i> -phenylalanin by microorga-	
gree of polishing of rice on the formation		nisms. (T. TAKAHASHI, T. UYEMURA,	
of amylase, maltase and protease in sake-		S. YAMAZAKI and Y. OMACHI).	44
koji. (Y. TOKUOKA).	30	Exermination of cocoon thread obtained from	
Beiträge zur Kenntnis der aus Antyū (ein		silkworms reared under dry and wet states.	
geistigen Getränke in Formosa) isolierten		(T. NAKAHAMA and S. NISHIMURA).	45
drei Milchsäurebildnern. (K. SATO and		Oryzanin "Antineuritic vitamin". VI.—On	
Y. SHIZUME).	30	the chemical structure of oryzanin. (S.	
Studies on the production of mucilage by		OHDAKE and T. YAMAGISHI).	46
bacteria. (I).—The classification of natto-		The influence of monochromatic lights on the	
bacillus. (Y. GO and S. NAKAMURA).	31	action of yeast catalase. (Part I). (R.	
Distribution of ascorbic acid in each organic		MURAKAMI).	50
of hen. (S. MACHIDA and T. SASAKI).	31	The influence of monochromatic lights on	
On the urease of yeast. (A preliminary re-		the action of yeast catalase. (Part II).	
port). (K. SAKAGUCHI and Y. SHIZU-		(R. MURAKAMI).	51
ME).	31	The influence of monochromatic lights on	
On the koji-amylase, Part VIII.—The fluc-		the action of yeast soya-urease. (Part II).	
tuation of amylase during the cultivation		(R. MURAKAMI).	51
		On the relation between the quality of to-	
		bacco and the content of pectic acid and	

methyalcohol in it. (S. KANAHARA), .....	52
On unsaponifiable substances especially sterol in the oil of "Tamari". (K. MIYAJI and M. OGURI), .....	52
Sterilizing action of acids, 9th report.—Re- lation between the stereo-chemical consti- tution of fatty acids isomers and the physi- ology of bacteria, No. II, optical active acids isomers and physiology of bacteria, No. II, optical active acids isomers and physiology of bacteria, (S. TETSUMOTO), .....	52
Nutritional chemistry of the flours, (Part I). —Vitamins and proteins in wistaria-flours, ( <i>Kraunhia floribunda</i> taub. var. <i>typica</i> mak). (K. KONDO and S. SHINANO), .....	53
The colorimetric method for the determina- tion of carbohydrate in protein-molecule, (The modified Sørensen's method), (K. KONDO and M. MURAYAMA), .....	53
Zuckerrohrwachs, I. Mitteil. Über die Phyto- sterine von Zuckerrohrwachs, (T. MITUI), .....	53
Physiologically active crystalline esters of vitamin A, (Part II), (S. HAMANO), .....	56
Über die Verschiedene Eigenschaften von <i>Aspergillus</i> arten, (V), (Y. TAKEDA und O. TAKEUTI), .....	56
The change of oxidation-reduction potentials of water-logged soils, III.—Humus- alkali- and fish farm soils, (K. SHIBUYA, H. SAEKI and K. RYU), .....	57
On the refractive index of the hen's egg- albumin, (Part 1), (K. KONDO and H. IWAMAE), .....	59
On the refractive index of the hen's egg- albumin, (Part 2), (K. KONDO and H. IWAMAE), .....	59
On the isoionic reaction of the hen's egg- albumin, (K. KONDO and H. IWAMAE), .....	60
Studies on a mannitol-bacteria, (B. NO- MURA), .....	61
Chemical studies on green tea, I.—Com- parison between chemical constituents of mecha and bancha, (S. MACHIDA), .....	61
Chemical studies on Japanese coccidae, XVI. —On the carbohydrates and waxes of sa- sakiaspis petagonia tar, (M. KAWANO and R. MARUYAMA), .....	61
On the koji-amylase, (Part IX).—The ex- perimental proof of the presence of $\beta$ - amylase in koji, (Y. TOKUOKA), .....	61
Chemical studies on silk fibroin, (VI).—The relative viscosity of fibroin and its com- ponent solution (2), (H. KANEKO and Y. NAKAZAWA), .....	63
Studies on canavanin, (VIII), (M. KITA- GAWA and J. TSUKAMOTO), .....	64
On the production of vitamin C-like reduc- ing substance by mouldfungi, (J. FUKU- MOTO and H. SHIMOMURA), .....	65
Studies on crystalline urease, (I), (M. KI- TAGAWA and M. FUJII), .....	65
Studies on "Funasushi", Pickles of crucian in boiled rice, (K. MATSUSHITA), .....	66
Studies on "Funasushi", pickles of crucian in boiled rice, (K. MATSUSHITA), .....	67
Influence of deficiency of three essential ele- ments (N, P, K) on the yield, ash-con- stituents (Si, Ca, P) and nitrogen content of unhulled rice.—About the relations of the typhoon of september 21, 1934, (C. ICHIKAWA), .....	67
On the retting of some Vegetable-fibre-ma- terials, (Part I).—The selection of effec- tive micro-organism for the bacterial ret- ting of the Ramie-fibre-materials, (T. TA- KAHAMA and S. NISHIMURA), .....	67
On the retting of some Vegetable-fibre-ma- terials, (Part II).—The action of Ram- F, on the retting of the Ramie-fibre-ma- terials, (T. NAKAHAMA and S. NISHI- RURA), .....	68
On the retting of some Vegetable-fibre-ma- terials, (Part III).—On the result of the retting of the Ramie-fibre-materials with Ram, F, (T. NAKAHAMA and S. NISHI- MURA), .....	68
Polysacchride X.—Über die Konstitution des neuen Disaccharids "Xyloglukuronsäure" aus <i>Kadsura japonica</i> , Don, (K. NISHI- DA und H. HASHIMA), .....	68
Utilization of the irradiated Mycelium of <i>aspergillus oryzae</i> for poultry feeding, (IV) —Addition of rice polishings, (R. TAKA- TA and K. YOKOYAMA), .....	71
On a new oxydising enzyme "Sucro-oxy- dase", (Part I), (T. MINAGAWA and J. ICHIHARA), .....	71
On a new oxydising enzyme "Sucro-oxy- dase", (Part II), (T. MINAGAWA), .....	71
Researches of the electrolytic reduction po- tentials of organic compounds, (Part 24) —Consideration of the electrolytic reduc- tion potential, (I. TACHI), .....	71
Researches on the electrolytic reduction po- tentials of organic compounds, (Part 25),	

—Standard electrolytic reduction potential and redox-potential, (I. TACHI), .....	72	ry leaves by silkworms, (Part III).—The influences on growth and products of silkworms fed on mulberry leaves to which cane sugar is added in different proportions, (K. KATO, S. MIWA and S. NEGI), .....	88
On the unsaponifiable matter of the alge fats, III.—On the toxic components, (K. SHIRAHAMA), .....	72	Studies on the utilisation and the digestion of the carbohydrates contained in mulberry leaves by silkworms, (Part IV).—The influences on the digestion of the chemical component of mulberry leaves by silkworms and the composition of silkworm body fed on mulberry leaves to which cane sugar is added in different proportion, (K. KATO, S. MIWA and S. NEGI), .....	89
Biochemical studies of the locust, (III), (C. ICHIKAWA), .....	73	Comparison of the qualities of three groups of the cocoons that were spun by silkworms fed a varying number of times, i. e. (a) 20, (b) 25, (c) 30. (T. NAKAHAMA and S. NISHIMURA), .....	90
Studies on the wine yeasts indigenous to Japan, (K. SAKAGUCHI, S. MORI and T. SIZUME), .....	74	On the contents of 0.2N HCl soluble phosphoric acid of Työsen soils, (II) (II, MISU), .....	91
Study on the essential oil of black tea, (Part III), (R. YAMAMOTO and K. ITO), .....	74	The investigation of glutamic acid preparation, (Part I—IV), (B. ROKUSHO, R. TANAKA and H. SAITO), .....	91
Experiment on the colon group of fishes, (Y. YASUKAWA), .....	76	Experiment on the colon group of fishes, (II) (Y. YASUKAWA), .....	93
On the bitamin B <sub>2</sub> contents of commercial dry yeasts, (Y. SAKURAI and R. SIRA-SU), .....	81	Über die Quantitative Bestimmung von 2, 3-Butylenglykol, (Y. TOMIYASU), .....	94
Researches on the industrial utilizations of Karafuto Tundrapeat, (Part I).—Manufacture of plastics form peat, (M. SHIKATA and S. FUJII), .....	81	Action of the xylan-decomposing bacteria, (Nutritive value of the pentosan VIII), (H. IWATA), .....	95
On the contents of 0.2N HCl soluble phosphoric acid of Työsen soils, (I) (H. MISU), .....	81	Alcohol manufacture from potatoes, I. Storage of potatoes, Part 1.—Changes during storage, (K. SATO, I. MARUTA, A. MATUMI and M. MURAI), .....	95
Chemical studies of apples, I.—On the physical and chemical properties of different varieties, (M. FURUUCHI), .....	81	Alcohol manufacture from potatoes, I. Storage of potatoes, Part 2.—Effects of some treatments on sprouting, (K. SATO, I. MARUTA, A. MATUMI and M. MURAI), .....	96
Über die Quantitative Bestimmung von Acetoin, (Y. TOMIYASU), .....	82	On the fermentative degumming of waste silk, (H. KATAGIRI and T. NAKAHAMA), .....	97
$\alpha$ -casein and $\beta$ -casein, (K. KONDO and T. YAMADA), .....	83	Studies on micro-chemical methods for the water analysis, (I)—The micro-volumetric determination of oxygen, alkalinity and chloride in water, (T. TOMIYAMA), .....	98
Die Untersuchungen über die den Schwarze Tee verderbene Schimmelpilze (I), (R. NAKAZAWA, Y. TAKEDA and T. OKADA), .....	84	Studies on micro-chemical methods for the water analysis, (II)—A new micro-method for the estimation of oxygen consumed from permanganate, (T. TOMIYAMA and	
Über die Fabrikation des Alkohols aus rohen Bataten, (Säurehydrolyse- und Amylo-verfahren), (R. NAKAZAWA, M. NAKANO and K. KOBAYASHI), .....	84		
Experiment on the colon group of fishes, (I) (continued) (Y. YASUKAWA), .....	86		
Untersuchungen von Essigsäurebakterien aus Formosa (XI).—Systematische Untersuchungen über Essigsäurebakterien aus Formosa (2), (S. TANAKA), .....	81		
Studies on enzyme action in digestive canal I.—Saliva of human and horse, (T. MATSUOKA), .....	87		
Studies on enzyme action in digestive canal II.—Saliva of animals, (T. MATSUOKA), .....	87		
On thermostable amylase, (T. MINAGAWA), .....	88		
Studies on the utilisation and the digestion of the carbohydrates contained in mulber-			

II. SUETOMI). . . . .	99	(K. NAKAJIMA and M. IKEDA). . . . .	116
Über die Acetylmethylcarbinol- und 2, 3-Butylenglykol-Bildung durch Mikroben. (III)—Über die Isolierung des Acetylmethylcarbinols, (Acetoin) (Y. TOMIYASU). . . . .	100	Chemical studies on silk fibroin. (VII, VIII). (H. KANEKO). . . . .	117
Experiment on the colon group of fishes. (III) (continued) (Y. YASUKAWA). . . . .	101	On the reaction and exchange capacity of the soil of Hiraodai, a plateau of paleozoic limestone, in North-Kyushu. (R. KAWASHIMA). . . . .	118
Studies on brewing-concerns in kwantung. (II) (WAI YING YEE). . . . .	101	On the thermophilic microorganisms isolated from kibbled soy bean cake which was spontaneously heated. (B. ROKUSHO and H. FUKUDOME). . . . .	119
Studies on brewing-concerns in kwantung. (III) (WAI YING YEE). . . . .	101	On the fixation of sericin of raw silk (Part I).—Fixation of sericin by chromium salts. (M. OKU and Z. HIROSE). . . . .	121
Alcohol manufacture from potatoes, (II) Storage of potatoes, Part 3.—Drying method of potatoes. (K. SATO, I. MARUTA, K. HAYASI and A. MATUMI). . . . .	102	Enzymatic studies of cereals, Part VII.—On the dextrifying amylase of rice-seeds. (G. YAMAGISHI). . . . .	122
Alcohol manufacture from potatoes, (III)—On the preparing of alcohol-mash by the method of acid-hydrolysis of potato, Part 1. (H. OKADA, K. SUGIYAMA and K. MORI). . . . .	103	Enzymatic studies on cereals, Part VIII.—On the amylases in germinated rice. (G. YAMAGISHI). . . . .	122
On some chemical properties of limestone red soil in regions of different climate. (R. KAWASHIMA). . . . .	104	Enzymatic studies on cereals, Part IX.—On the development of amylases during the germination of rice. (G. YAMAGISHI). . . . .	123
Studies on the fractionation and absorption spectra of the lobster-proteins, (I) (K. KONDO, T. YAMADA and S. SHINANO). . . . .	106	Experiment on the colon group fishes, (IV, V) (Continued). (Y. YASUKAWA). . . . .	124
Studies on the fractionation and the absorption spectra of the lobster-proteins, (II) (K. KONDO and T. YAMADA). . . . .	107	On the study of soils containing alkali salts in Hulumeierh, northwestern Manchoukuo. (M. IKEDA). . . . .	125
Aminosäure-Abbau durch Aspergillus Oryzae. (I)—Bildung von Phenylbrenztraubensäure aus <i>l</i> -Phenylalanin (I). (T. UYEMURA). . . . .	107	On the contents of 0.2N HCl soluble phosphoric acid of Työsen soils, (III) (H. MISU). . . . .	125
Aminosäure-Abbau durch Aspergillus Oryzae. (II)—Bildung von Phenylbrenztraubensäure aus <i>l</i> -Phenylalanin (II). (T. UYEMURA). . . . .	108	Researches on the manufacture of alcohol from the Manchurian starchy materials, (Part I—III).—Amylo- and acid-hydrolysisprocess). (E. YOSHINO, W. YOKOYAMA, T. MAKIHARA, and M. NAGASHIMA). . . . .	125
Sterilizing action of acids, 10th report, I. Sterilizing action of aldehydic and ketonic fatty acids, II. Sterilizing action of acetic acid. (S. TETSUMOTO). . . . .	108		
On the alcohol manufacture from jerusalem artichoke (Part III)—On the saccharification of jerusalem artichoke. The inulase of the moulds. (T. ASAI). . . . .	110		
Mycological and chemical investigation on the manufacture of antyu, (I) (R. NAKAZAWA and his co-workers). . . . .	110		
Studien über Sericin.—I, and II. Mitteilung. (T. ITO und K. KOMORI). . . . .	115		
Study on selenium catalyst in the determination of Nitrogen by Kjeldahl's method.
